Professional summary

Full-Stack Web Developer who builds responsive, user-friendly web applications with JavaScript, React, Node.js, Express.js, and MongoDB. I built and deployed a full-stack e-commerce app with authentication, order management, and an admin dashboard. My Business Administration background shapes how I decide what a product needs to achieve. Open to remote, freelance, contract, and full-time opportunities.

Work experience

Full-Stack Web Developer

Self-employed (freelance) | October 2025 to present

- Built ShopMate, a full-stack e-commerce app with product browsing, search, categories, authentication, cart, wishlist, checkout, and order history.
- Built an admin dashboard to move orders from pending to processing, add products, update stock, and view registered users.
- Deployed the React frontend on Vercel and the Node.js and MongoDB backend on Render.
- Fixed production bugs, including a routing error that broke inner pages on reload, and improved responsive design.
- Used Git and GitHub for version control across all projects.

Projects

- **ShopMate** (React, Node.js, MongoDB, Vercel, Render): full-stack e-commerce app with login, wishlist, orders, and an admin dashboard.
- **Portfolio website** (HTML, CSS, JavaScript, Firebase): responsive site with a contact form that saves to Firestore and a password-protected admin inbox with search and filters.
- **Survey form, product landing page, and travel guide documentation** (HTML, CSS): responsive, mobile-first sites, all live on GitHub Pages.

Skills

- **Frontend:** HTML5, CSS3, JavaScript, React, Flexbox, CSS Grid, responsive design
- **Backend:** Node.js, Express.js, MongoDB, REST APIs, authentication, Firebase (Firestore and Authentication)
- **Tools and deployment:** Git, GitHub, Vercel, Render, GitHub Pages

Education

Higher National Diploma (HND), Business Administration and Management

Institute of Management and Technology (IMT), Enugu, Nigeria | Started November 2022, expected graduation October 2027
